BeSecure

Estate Panic Solution

The intelligent panic and fall detection solution.

A unique and feature-rich system across your entire estate. Calling for help when needed and automatically detecting if you fall. Giving you the freedom to live your life with peace of mind.

BE ACTIVE

With assistance just a button press away, you can sleep, shower, go for walks and live your life.

Up to 9 months battery life means no charging, so that you can keep your BeSecure device with you for continued peace of mind.

BE AT PEACE

Automatic device health checks ensure that you BeSecure device is always ready when you need it.

Alerts can be configured to go to the care centre and estate security with additional SMS and email notifications.

BE INDEPENDANT

Move around freely. Our devices are designed to work seamlessly within the BeSecure wireless coverage across your entire Estate.

Built-in fall detection will call for help when you need it, even if you can't.

Coming 2026-Q3

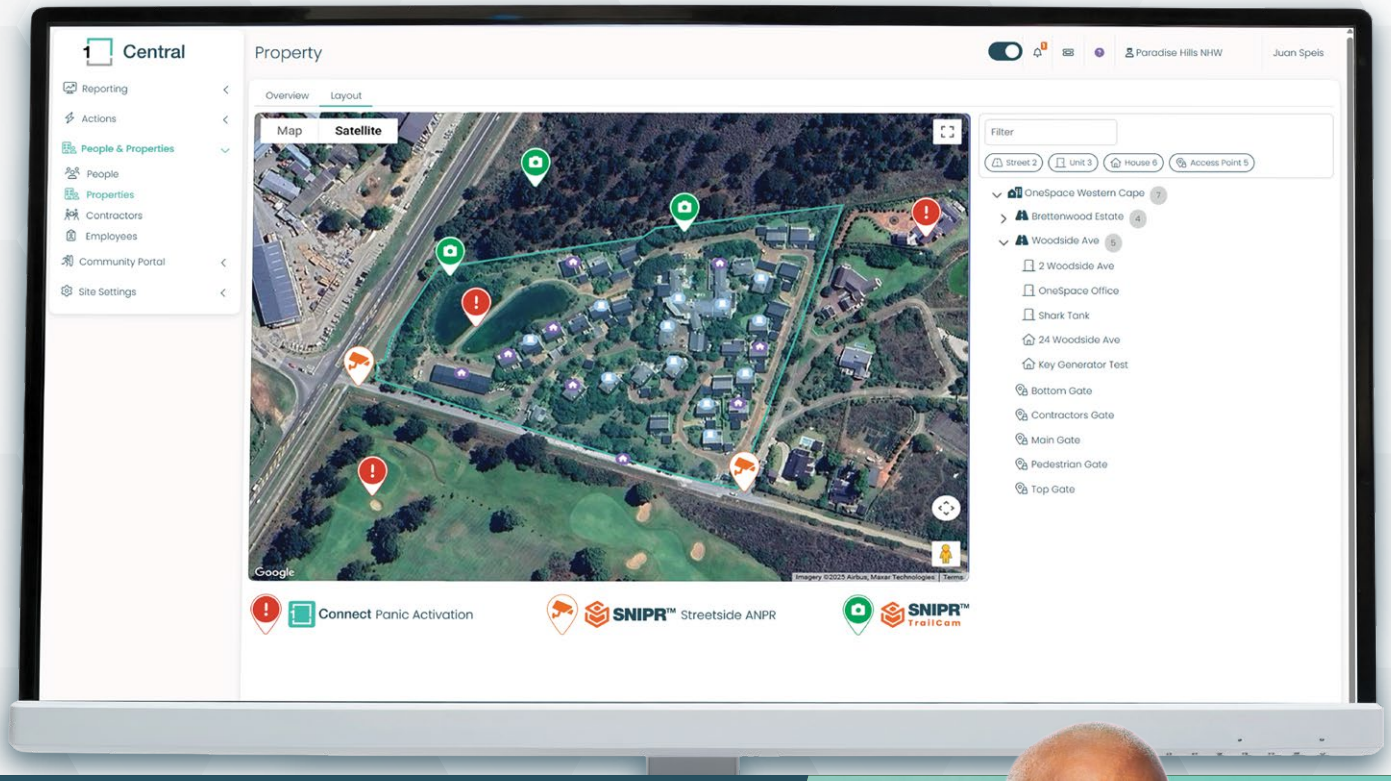

Setting Up Communities Made Easy

Setting up and running a community is complicated and time consuming. **OneSpace** is a purpose-built company dedicated to creating **communities** easily and **keeping them safe**.

From OneSpace you can manage and monitor:

1. Your properties
2. Who owns and lives in them
3. Incidents (municipal, services, crime, etc)
4. Community engagement
5. Panic buttons
6. Vehicle licence plate recognition
7. TrailCams

This **seamless** approach gives **Gated Estates** peace of mind, **enabling rapid responses** to threats and fostering **stronger connections** among residents. Access your world through **OneSpace Central** or **OneSpace Connect App** to **simplify operations** and **enhance safety** in urban neighbourhoods.

BeSecure

Resident Information

Every **BeSecure Panic Wearable** carries essential resident information including next of kin, emergency contacts and any special medical conditions. This data travels with the resident, ensuring responders always have exactly what they need to provide swift, appropriate assistance.

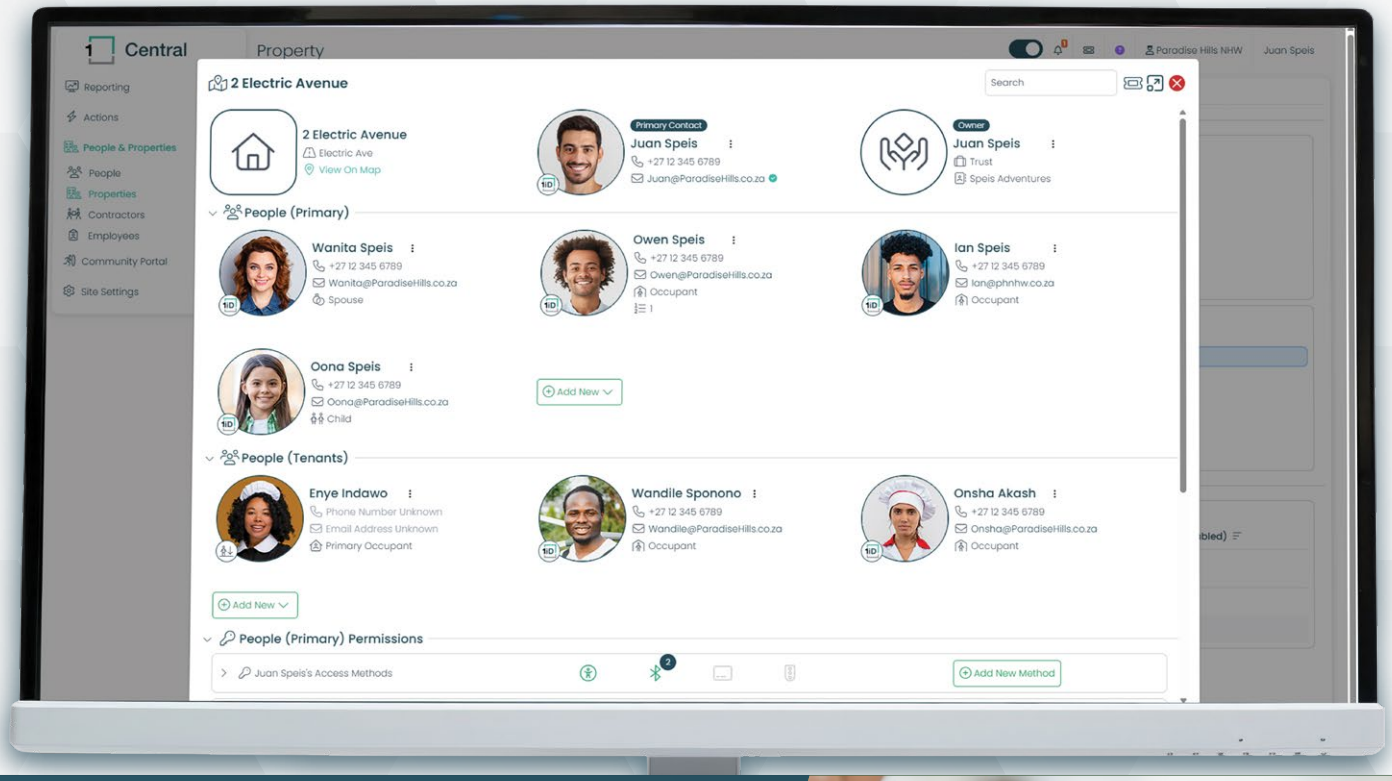

Property Oversight Simplified

With **OneSpace Central**, gain peace of mind through easy access to **comprehensive property details**. Simply click on a property to view the **owner**, **primary occupants** like **spouses** or **children**, and **tenants** such as live-in help, complete with **contact information** for **swift communication**.

This secure overview empowers Neighbourhood Watches to monitor residents **effectively**, fostering **stronger connections** and **rapid responses** in urban settings. Review **access methods and rights** for **each individual** and see **valuable insights** on **Access Control** and **Visitor Management**, enabling managers to maintain control and enhance community safety without complexity.

Imagine the **confidence** from **clear visibility** of **who** lives **where** and **how** they access shared spaces, **streamlining oversight** to **build trust**, **reduce risks**, and **unite your neighbourhood**.

BeSecure

Care Worker Wearables

Central links care workers directly to residents through **BeSecure Panic Wearables**. These devices instantly notify care staff the moment a resident needs help, delivering rapid, coordinated assistance across the entire estate.

We've Got You Covered

ALWAYS ALERT
Over 9 months average battery life, no charging required, daily system alerts for low battery levels, full estate coverage and water-resistent devices ensure that BeSecure works whenever you need it.

Panic and fall events are immediate and in real-time.

AUTOMATIC FALL DETECTION
BeSecure devices contain accelerometers that monitor movement and will automatically create a fall alert when detected.

TRULY PERSONAL
Every device and alert is linked to owners details and approximate location, ensuring that responders know who, how and where to help.

FREEDOM TO MOVE
The BeSecure infrastructure covers your entire estate, so that you have the freedom to excercise, visit and move about the entire estate with peace of mind.

CONFIRMED EVENTS
Depending on which BeSecure device you use, either vibrations or LED lights will confirm that your alert has been recieved.
