GATEBOOK

Empower Your Guards Simplify Your Life

Manage your Visitor & Access Processes from a Single Device.

GateBook is enhanced with 1iD Technology.

Take your business, residential estate or complex into the future of visitor management. With over 30 tasks to choose from and the ability to create multiple custom work flows the **GateBook** digitises and secures any site it's deployed on.

STRANGERS ON SITE

GateBook processes visitor Entries and Exits. Capturing photos as well as personal, contact, vehicle and destination details as needed. Processing pre-authorised PINs links the visit back to the resident that authorised it for comprehensive reporting.

VISITOR PINS

Create exit PINs for visitors to use on a keypad or in a **GateBook** Workflow. Or create and share PINs from the **Connect** app. Every PIN is linked to the user that generates it and is reported accordingly.

PROCESS FLOWS

Configure your workflows to capture every detail you would want from any use case. Including IDs, Vehicle info, images, destinations and more. Include automated boom control and negate the factor of human error.

GATEBOOK STANDALONE

GateBook can operate as a standalone solution for one or many access points. There are different package options for you to get the most value-for-money. The three **GateBook** standalone options are:

- **Foundation**
- **Core**
- **Elite**

OFFLINE FUNCTIONALITY

- Buffered PINs
- Offline transaction storage
- GSM & WiFi connections
- Offline messages on app

CUSTOM WORKFLOWS

- Configure workflows for each visitor type.
- Configure separate workflows for Entry & Exit
- Capture all relevant info

REAL-TIME SYNCED

- Cloud-based
- Immediate PIN Validity
- All records and reports consolidated online
- Report from anywhere

GATEBOOK PREMIUM ELITE

Unlock the full power of the **GateBook** system with **Premium Elite**. With unlimited users and cloud services, **GateBook Premium Elite** is empowered with advanced features and purpose-built workflow tasks that allow you to capture every bit of information and surety you need from entry & exit procedures.

THE POWER OF PINS

- Generate Exit PINs from Entrance Workflow
- Bulk PIN Generation from **OneSpace Central**
- Automatically SMS PINs
  *Charges apply

USER DATABASES

- Contractor Database
- Employee Database
- Resident/tenant Database with **1iD**

CRITICAL CAPTURING

- Capture Photos
- Capture Signatures
- Detect Changes in Drivers & Passengers
- Prevent Undoing of Tasks

Enhance Your GateBook

Connect

OneSpace Connect is a resident app that can generate preauthorised visitor PINs for use in **GateBook** and **OneAccess**.

GATEBOOK

SIP CALLING

Call a resident from the **GateBook** device as part of the workflow. Residents can press a key on their phones to confirm and authorise.

AUTOMATED BOOM CONTROL

Remove discretionary power from guards and ensure absolute control at the gate by only opening the boom as part of a completed **GateBook** workflow.

AUTOMATED PRINTED PINS

Automatically print exit passes upon entry. Print text, scannable QR codes or PINs for use in **GateBook** or on keypads.

SNIPR™ CheckPoint

Notify your appointed security service provider as any vehicle linked to criminal activity is scanned by your **GateBook** device.

1iD One System for Ultimate Convenience

OneSpace systems are enhanced with **1iD** technology. Meaning that one user has one account that connects them on all levels of our access control, visitor management and estate management platforms. This also means that your one account and password will work on the **Connect** app as well as our online portal; **OneSpace Central**.
